About National University of Singapore (NUS)

A leading global university centered in Asia, the National University of Singapore (NUS) is Singapore’s flagship university which offers a global approach to education and research, with a focus on Asian perspectives and expertise.

NUS has 14 faculties and schools across three campuses. Its transformative education includes a broad-based curriculum underscored by multi-disciplinary courses and cross-faculty enrichment. Over 36,000 students from 100 countries enrich the community with their diverse social and cultural perspectives.

NUS’ collaboration with Yale University builds on the University’s framework for internationalization where NUS has been undertaking major initiatives with leading institutions around the world. NUS’ current collaborations with overseas universities include a graduate medical school with Duke University, a conservatory of music with Johns Hopkins’ Peabody Institute and concurrent and double degree programs with New York University’s Law School. NUS also has a partnership with the Massachusetts Institute of Technology for over a decade, including dual Masters degree program in several engineering disciplines.

NUS has three Research Centers of Excellence (RCE) and 22 university-level research institutes and centers. It is also a partner in Singapore’s 5th RCE. NUS shares a close affiliation with 16 national-level research institutes and centers. Research activities are strategic and robust, and NUS is well-known for its research strengths in engineering, life sciences and biomedicine, social sciences and natural sciences. It also strives to create a supportive and innovative environment to promote creative enterprise within its community.
